### DESCRIPTION

Manufacturer: Mahram Darou, Iran

Substance: Sildenafil Citrate

Pack: 4 Tablets (100 mg/tablet)

A number of treatments have been applied in order to overcome the impacts of erectile dysfunction. Erectile dysfunction is an alarming problem among the men. Sildenafil 100mg (Viagra) is an oral supplement that is used in the treatment of erectile dysfunction. One of the very popular Sildenafil Citrate substances is Viagra Mahram manufactured by Mahram Darou.

Sildenafil 100mg (Viagra) was patented in 1996, approved in 1998 making viagra the first official drug to treat erection problems and being made available for sale later that year. Viagra was initially developed a heart condition called angina, during the testing period for this drug it was found to give an erection to men.

### Effects of Viagra (Sildenafil 100mg)

When it comes to the treatment of erectile dysfunction, there is no way one can deny the impacts of Sildenafil. Many men in these days suffer from erectile dysfunction. Sildenafil enhances blood flow to the penis and makes users' penis hard. Today, this supplement is widely used for treating erectile dysfunction.

### Characteristics of Viagra (Sildenafil 100mg)

If you are after improving your sexual activeness, use of Viagra can be a good way to do that. This helps to improve sexual performance by improving the erection quality. This allows adequate blood flow in the penile arteries.

### Dosage of Viagra (Sildenafil 100mg)

Irrespective of the condition of the victim, the suggested dosage of this substance is 50mg and should be taken at least 1 hour prior to sexual intercourse. It can be used with a glass of water. Empty stomach is recommended. But, people who want to use this supplement should consult with an expert about their physiology since experts can guide them properly.

### Side effects of Viagra (Sildenafil 100mg)

There are not much of side effects of this jelly. However, users may experience abnormal vision, anxiety, bone pain, blurred vision, chest pain, confusion, fever, dry mouth, headache, fainting, increased sweating, breathing trouble, stomach discomfort, sneezing etc.
